The typical eCommerce model, however, often results in orders that are difficult to manage, customer frustration, and reduced sales. You also probably know that having a fully featured eCommerce site is no guarantee of sales. As a small or even medium-sized business (SMB), you may not have the resources needed to have an online storefront that appeals to your customers and provides the functionality that will increase conversion. For small businesses, the eCommerce model is often a really bad fit. It requires a lot of resources, including time and money spent on a website development, display advertising, and fulfillment. This post describes a cloud-

based eCommerce strategy that can help SMBs like yours create an eCommerce site that is easier to manage, more attractive, and more trustworthy. It is
