**Deadlands Reloaded: Coffin Rock (Deadlands Reloaded: The Undead West) is a conversion of the award-winning Savage Worlds Deadlands 2nd Edition ruleset for Fantasy Grounds for use with the Savage Worlds v3 rules. While the rules remain valid for use with both Deadlands Reloaded and Deadlands Original Edition, the Savage Worlds v3 Ruleset is recommended for users of the game. The Nameless Legion returns in Coffin Rock, Colorado. When the Legion players started their quest for vengeance, everyone assumed they were dead. Then they showed up at Coffin Rock! Well, just about everyone, anyway. The Legion was, as usual, led by the infamous Goblin King, who had discovered the secret to eternal life in the form of a mysterious little town in the middle of the American Southwest. This so-called the Tomb of Dreams, where strange powers are said to be at play. The locals were not so happy, and the wicked souls that lingered were pretty much angry with one another. They almost never get along. The Legion was an "organized" gang, with its own leader, rank, hierarchy, and its own special customs and traditions. Ghosts made a lot more sense around Coffin Rock, anyway. Why were they still dead? The townspeople of Coffin Rock were not going to stand idly by while the Legion tried to take over! Time for a showdown. Vengeance, and a whole lotta crazy! Deadlands Reloaded: Zombie Island of Dr. Ned A**
